

Ref.: 383514

U·METER+, FLOW METER WITH BLUETOOTH, ALUMINUM, 1/2"

High accuracy pulse meter that includes, in a compact unit, the electronics required to control the meter and valve operation and communication with other system components through a Can-bus connection. It has an LED display showing the U·meter number assigned in the system, four colored LED lights that show the U·meter operation for diagnosis and two buttons for system configuration. Equipped with fast connection in/out Can-bus terminals. Available in different materials and sizes to match different applications. Only for connection with U·dat, an adjacent U·meter, U·valve or U·valve+. Requires a 24 V DC solenoid valve (U·dat or U·power). Supports Bluetooth® communication for connecting it to a U·vision or U·vision+ delivery handle. · Remember, use Umeter+ by NEXU to save time, fluids and money.
